# John Cañero

React Developer, Architecture Student - Aspiring people to build  
and create stuffs | React • Next Js • JavaScript • Typescript • CSS •  
Tailwind CSS

Quezon City, National Capital Region, Philippines

## Summary

I enjoy creating stuffs. I like to BUILD. To have fun, help people and  
show my work to the world. This is where I come in.

### MY STORY:

Early back in my childhood and early teens, I usually love to draw  
architectural houses on a paper. The passion behind building  
and sketching houses helped me paved the way on choosing the  
program I like in College: Architecture.

Right now, I am currently studying in University of Santo Tomas  
taking up BS Architecture. I am grateful and happy in my growth  
and journey in the institution. My design philosophy throughout my  
student experience in every project I create: "The role of architecture  
is to design spaces for people and making them happy."

This philosophy helped me a lot when designing and building stuffs  
that focuses on users.

### TECH JOURNEY:

At the other side of the field, I spend my time learning on technology  
especially the Frontend Development and UX (User Experience) and  
it helped me experience and see the opportunities at the tech sector.  
I consistently learn the concepts and tools behind and building  
projects around it.

In the future, my career aspiration would be to develop and build  
products that would uplift humankind. With the experiences I had, it  
helped me to empathize the users and realize what are their needs  
and wants. To always focus and center the user and make them  
happy.

## HIGHLIGHTS:

- # Graduated at The Complete Web Development Bootcamp 2022
- # Aspiring Software Engineer/Developer (Upskill Education)
- # Heritage Conservation Society- UST Chapter (Project Manager and EA to Community Development)
- # Accomplished Google - Foundations of User Experience (UX) Design Course
- # Progress: The Ultimate React 101 at Scrimba

(Architecture) - : Architectural Design, AutoCAD, SketchUp, Revit, Enscape, Lumion, Vray, Adobe Lightroom and Adobe Photoshop.

(Web Development) - : JavaScript, TypeScript, React Js, Next Js, HTML, HTML5, CSS3, Tailwind CSS, Bootstrap, Netlify, Vercel, Node Js, Express Js, MongoDB, NPM, Git, GitHub, Front-End Development, Web Development, Figma, Canva and UI/UX Design.

:

When I have free time and no work, I enjoy # playing football, table tennis, badminton, ♂# cycling, ♂# running, ♀# playing board games such as chess, and reading growth and development books.

## Experience

### Upskill Education

Aspiring Software Engineer/Developer

March 2022 - Present (9 months)

Metro Manila, National Capital Region, Philippines

I am actively learning the technology in the web development field as a part-time study hobby. I would like utilize my strengths in the love of learning, creativity, problem-solving and the importance of delivering quality and essential products to users.

: JavaScript, TypeScript, React Js, Next Js, HTML, HTML5, CSS3, Tailwind CSS, Bootstrap, Netlify, Vercel, Node Js, Express Js, MongoDB, NPM, Git, GitHub, Front-End Development, Web Development, Figma, Canva and UI/UX Design.

## Udemy

Graduated at The Complete Web Development Bootcamp

March 2022 - August 2022 (6 months)

National Capital Region, Philippines

## Heritage Conservation Society

2 years

Project Manager

2019 - 2020 (1 year)

National Capital Region, Philippines

I am part of the organization in the (University of Santo Tomas - Chapter) promoting the richness and culture of heritage in the country. The role is essential in terms of inviting and contacting the speakers, managing the documents and giving the importance of our heritage of our nation. With the help of my associates and peers of the organization, we managed several papers that is needed and required to submit for the preparation of the events of the organization.

One of the projects I co-handled: Baybayin Buhayin: A Alphabetic Writing System Workshop that promotes the beauty and writing of the Philippine Script Heritage.

## Executive Associate to Community Development

2018 - 2019 (1 year)

National Capital Region, Philippines

The role is significant in managing the papers for the preparation of events and documentation in the community development programs. I am part of the organization in the (University of Santo Tomas - Chapter).
